Work specification

Job Information:

Job Name:
Autodok Internett
Job Id:
02929-23-746828
Job Type:
Access
Responsible:
alfnes, Alf Nesdal
Requested done:
03/03/2023
Agreed done:

Project description:
Created by LSD

Design Information:

Full Design Name:
746828
Status:
Under Routing
Owner:
alfnes
Responsible:
NI User
Last Change by:
roypet
Last Change on:
24/02/2023

Note:

Contractor must contact:
Network operation Services, tel. +47 21550350, when installing IP based services.
Network operation Transmission, tel. +47 21550379, for WDM or SDH based services.
Homenet: When installing ASR switches, - call +47 38990101.

The installation must be documented with photos, which are sent to the client.
New equipment must be marked with GlobalConnect stickers.

New services must be tested or approved by Network operation before leaving the location.
The contractor must check whether all equipment has been received. This applies to both GlobalConnect warehouses and external suppliers.

Equipment identification:

New sheaths:
BROf90531 G4, U4

Associated connection:

[F] is for Facility, which is a physical connection between two units.
In case of status «Reserved», this should be connected.
In case of status «In Service», this is already connected.

Circuit:
